CO-MANAGEMENT OF FRAGILITY FRACTURES

Maalouf G.

Chairman of the Musculoskeletal Department, Bellevue University Medical Center, Mansourieh-Lebanon www.bmchcs.com

Keywords: *Osteoporosis, Fragility Fracture, Osteo-Geriatrics*

Introduction: Worldwide the population shift towards elderly people. In the year 2050, 38.5% of the Japanese population will be over the age of 65 years. More frequent falls and osteoporosis result in a dramatic increase of fragility fractures. In Europe an osteoporotic fracture occurs every 8 seconds.
